Principal's Message:

January has arrived! And with it, a blast of cold weather. Having two days without busing is certainly not what we had anticipated, however, we have much to be thankful for in that we have warm homes and can feel safe during those times.

As we enter this part of our school year, it is important to continue the hard work that has been started. As we move forward with our learning, remember that it is often with challenges that we learn the most. Don't give up when the work seems hard; if one has a growth mindset, it helps to work through the difficulties and see success at the end. With growth often comes change. If you are struggling with something, increased effort is important but it is also important to see if you need to change what you are doing. We encourage you to stay focused and keep an open mind to learning.

We have many exciting events coming up for our school - our Mini-dunkers will soon have their first game, the Round Hill basketball tournament, our annual ski trip, and special school-wide and classroom activities. These special events are an important part of our school life, and regardless of what we are doing, we are learning. We continue to remind our students to please remember to keep it **REAL**. Show **respect** to those around you, always give your best **effort**, keep your **attitude** positive, and look for opportunities to show effective **leadership** to those around you. There is always someone who is watching and learning from what you do.
