TRANSPORTATION APPLICATION

Alberta Education provides funding for “eligible passengers” to a designated school within their school attendance area.

Eligible Passengers: Students who reside 2.4 kilometers or more from their designated school. The shortest distance is measured and includes walkways, pathways, roadways, alleys, parks, ditches, etc.

Ineligible Passengers: Students who reside less than 2.4 kilometers from their designated school, and who do not meet the eligible passenger criteria above, or who are being transported to a School of Choice (see definition below).

School of Choice: The school that parents choose to send their children to, outside their attendance area. For information on attending a School of Choice, see Policy 17 located on the Battle River School Division website at www.brsd.ab.ca.

Transportation to a School of Choice: For information on transportation to a School of Choice, see Policy 18 located on the Battle River School Division website at www.brsd.ab.ca.

**** Transportation to a School of Choice will be reviewed on an annual basis and cannot be guaranteed from year to year. ****

Transportation Fee: A Transportation Fee, which is set annually, applies to each ineligible passenger at the beginning of each school year. The Transportation Fee will not be applied if the parent drives to meet a bus bound for a School of Choice on route. Transportation will be provided to ineligible students only if space permits on an existing bus route.

The **Transportation Application** form must be completed in full and returned to the Transportation Office no later than August 15th for the upcoming school year.

**NEW STUDENTS ARE NOT CONSIDERED FOR TRANSPORTATION
UNTIL THIS FORM HAS BEEN RECEIVED.**

Bus Passes: City of Camrose bus passes will be issued at the Transportation Department Office located at 6211-48 Ave, Camrose, AB in August. The replacement fee for a lost or missing bus pass is \$10.00.

I, the undersigned, have read and understand the information in the Transportation Application as noted above:
